Approval of C4 / Non-Flowable Structural Material for Reinstatements for use in utility reinstatements

Dear Mr Carmichael

In accordance with A9.5.2.5 of the Specification for the Reinstatement of Openings in Roads (SROR), Clackmannanshire Council would like to register approval for the use of C4 / Non-Flowable Structural Material for Reinstatements as tested in the SROR 2003 trial completed on 5TH June 2015, effective from the date of this letter.

I understand that the use of this material will continue to be recorded on the SRWR. Ongoing approval is subject to the SMR proving effective over a longer term monitoring regime.

Yours sincerely
